## 1. Preface

In order to support campus learning and teaching, new Campus Wireless Authentication platform based on latest technology will go live on 29 Mar 2015.

## 2. Campus user login

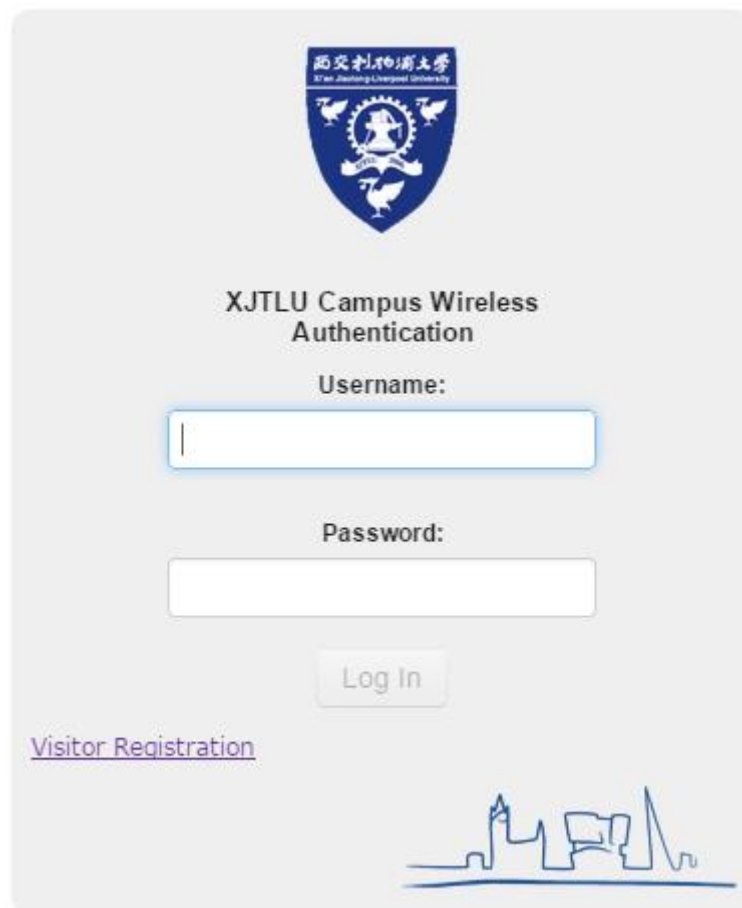

### 2.1 log in to the wireless network

Search and connect campus wireless SSID (XJTLU) in terminal.

## 2.2 Login page

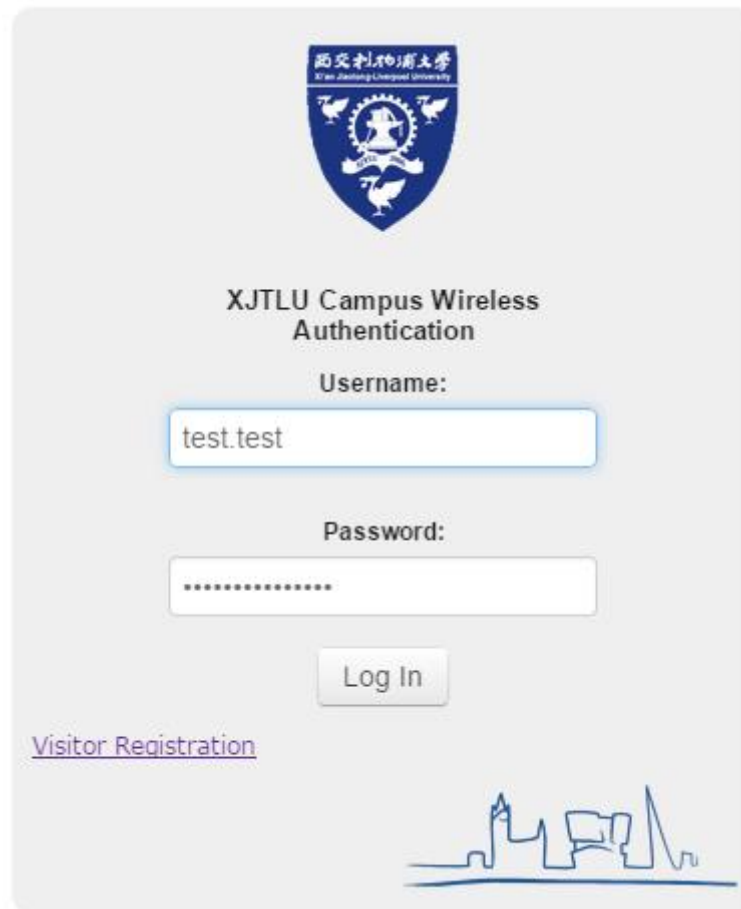

Open a new web page by browser (需要通过浏览器打开任意一个网页), the page will automatically popup wireless authentication

The image shows a login page for XJTLU Campus Wireless Authentication. At the top center is the XJTLU logo, which is a blue shield with a white emblem and the university's name in Chinese and English. Below the logo, the text "XJTLU Campus Wireless Authentication" is displayed in a bold, black font. Underneath this, there are two input fields: one for "Username:" and one for "Password:". The "Username:" field is a white rectangle with a blue border and a vertical cursor on the left. The "Password:" field is a white rectangle with a blue border. Below the password field is a "Log In" button with a blue border and the text "Log In" in a blue font. At the bottom left of the page, there is a link labeled "Visitor Registration" in a blue, underlined font. At the bottom right, there is a blue line-art illustration of a city skyline.

## 2.3 Input account information

Enter username and password, then log in.

The image shows a login page for XJTLU Campus Wireless Authentication. At the top center is the XJTLU logo, which is a blue shield with a white figure and the university's name in Chinese and English. Below the logo, the text "XJTLU Campus Wireless Authentication" is displayed. Underneath, there are two input fields: "Username:" with the text "test.test" and "Password:" with a masked password represented by dots. A "Log In" button is positioned below the password field. At the bottom left, there is a link for "Visitor Registration". At the bottom right, there is a stylized line-art illustration of a city skyline.

The page will be redirected to access web page

## 3 Notes

3.1 The number of device for an account

Student: 3

3.2 If the device is offline for certain days, it is required to re-login

3.3 If the authentication fails, please try again with your correct account information.
